

Dear Parent,

ParentMail – PMX

We made a decision to reduce the amount of paper and photocopying that we undertake that is not curriculum related, and we use ParentMail (the latest version is PMX) to send information to parents by email and texts.

This system means that we can get information to you far quicker, reduce the risk of paper copies not reaching you and enable you to reply and provide consent electronically (i.e. no requirement from you as parents to print reply slips to sign and return).

It allows us to notify you by text if children will be late back from a trip or if the school has to be closed.

We also send flyers from the PTA and other organisations who are connected to our school about activities you may be interested in.

We have now upgraded our subscription to include the parent evening booking system, and the payments option.

Once your child has started at school you will receive an email or text inviting you to register onto the system. The current version has an 'App' which is free to download and makes the system even easier to use. There is also the facility for parents to notify us if your child will be absent from school.

The ParentMail service is registered with the Data Protection Register, which guarantees that all information supplied will be kept completely private. There is also no advertising associated with the scheme.

Our school messages will be sent from messages@parentmail.co.uk. Please add this to your address book (or approved sender list) in order to prevent the messages being blocked by your SPAM/JUNK filters.

Yours sincerely,

Sue Dury
