

Disability Information

- When a child with disabilities is admitted to the school, we will seek information from the parents and other relevant agencies to help us provide suitable arrangements for him/her.
- Provision for the child will be monitored to ensure full access to the curriculum and other activities wherever possible.
- The school has been modified to provide wheelchair access throughout. We have a disabled toilet with hoist and changing facilities, and we have a hoist by the swimming pool.
- The governing body has a policy for Special Educational Needs.
